HISTORIC AMERICAN BUILDINGS SURVEY

Addendum to NICHOLAS S. BURCKHARDT HOUSE

HABS No. MO-243

Location: New Franklin vicinity, Howard County, Missouri

HISTORICAL AND ARCHITECTURAL INFORMATION

The following information was recorded by Alexander Piaget and Charles van Ravenswaay at the time the photograph was taken:

Built 1832. Booker and Harry, two slave brickmasons belonging to Judge Rawlins, seem to have made the brick and built the walls of this house. The cornice is of the same design as that of the Morrison House (HABS No. MO-239) and the windows like those on the William Scott House (HABS No. MO-238). The builder of this house apparently intended to use wrought iron hand rails on either side of the entranceway. The stone steps were cut for them, but the ironwork was never put in place.

PROJECT INFORMATION

The Piaget-van Ravenswaay Survey consists of a number of photographs, primarily of sites and structures in Missouri, which were taken before 1938 by Alexander Piaget and after that by Paul Piaget, both in conjunction with Charles van Ravenswaay. Photographs of buildings were incorporated into the HABS collection in 1985 by Laura Rupp and in 1986 by Deborah Fulton, HABS historians. A master list is available in the ~~MO-1800~~ records for MO-1800.
